

we are down here this fall, I will get a new one in the spring and I won't have any more repairs done to it than I can possibly help this year."

Q Had you had a great many repairs?

A Oh, quite a good many minor repairs, but very few big repairs.

Q What was the last time before the 14th you had any trouble with it? Do you recall approximately?

A I remember that the tires were in awfully bad shape and I know the car needed a general overhauling in every way, if it was worth it, but we found it wasn't worth it so we got rid of it next spring, traded it in for another car.

Q While we are on the subject of automobiles and cars and garages, did you ever take it to a nearby garage for repairs when you had this difficulty with the car?

A Very, very seldom with the possible exception of some very minor thing like a tire patch or something of that kind.

Q Did you take it to this Brielle garage, - is that the place?

A At that time if there were any repairs to be done, I would take it to the Brielle garage.

Q Where was that located?
